

About Us

We want you to think of TeamCare as your medical home, a place that will focus on every aspect of your health, beginning with preventive measures and patient education plans that are practical and beneficial. Whether you need treatment for an illness, management of chronic health concerns or assistance with other health issues at any stage in life, you can find prompt, professional, and cost-effective services all under one roof at TeamCare.

Medical services, provided by AdventHealth Medical Group (AHMG) and pharmacy services, provided by Walgreens, are both staffed by medical professionals who are committed to providing you with the highest quality of individualized care in an environment that is compassionate, respectful, private and responsive to your health care needs.

Services

AHMG and Walgreens located at TeamCare are designed to provide an affordable and convenient solution to diagnosing and treating illnesses as well as providing pharmacy services. No extra steps or extra stops – it's all in the same center.

Services are provided to both insured and uninsured Team Members with the appropriate payment. Dependents (spouses and/or children age 12 and over) that are covered by one of the Universal medical plans, are also eligible to utilize these services.

MEDICAL CARE SERVICES are available to all Universal Orlando paid Team Members and affiliates. Services include health screenings, preventive care, diagnosis and treatment of chronic illnesses as well as urgent care needs that are non-work related.

Parental/guardian consent is required prior to treatment of a minor.

PHARMACY SERVICES allow for conveniently obtaining prescriptions while enhancing your pharmacy services. The Walgreens pharmacy staff at TeamCare will help you understand your medication and explain your options. Individuals may also utilize TeamCare to pick up prescriptions for their family members.

Third party Team Members are not eligible for medical services, but may use the pharmacy services.

Professional Staff

The staff located at TeamCare are experienced medical professionals who take the time to understand your needs and concerns and speak in a manner you can understand. You and your health are their top priority.
